## PROFILE

I am a graduating student taking a Bachelor of Science in Information Technology at STI College Muñoz-EDSA. I already experienced developing a various websites using various programming languages and frameworks. I am passionate when it comes to programming and I am constantly looking for an opportunity where I can improve, learn, and expand my knowledge and skills.

I am already exposed in different environment where I fully utilized and applied my knowledge when it comes to programming. I'm always thriving for the innovation and love turning complex problems into a functional and useful code.
